

Flat Earth Clues

End of The World

Is the Flat Earth theory that has been burning through the internet now ushering in the End of the World? Take a look at how we got here with Mark Sargent, star of the Netflix documentary "*Behind the Curve*" and creator of Flat Earth Clues. Go behind the scenes in tell-all chapters covering many of the major players in the Flat Earth community, both friend and foe. Break down some of the experiments being conducted by the activists, and find answers to the most common Flat Earth questions posed today. What role will NASA and the government have to play in the upcoming conflict? Where will religion stand when the dust settles? Will science be able to do anything to stem the tide of anti-scientism?

ABOUT THE AUTHOR

Mark Sargent started out playing software games professionally. As a part time hobby he'd look into and debunk conspiracy theories. The 'Flat Earth Theory' was the last on the list. Thinking this would

be an easy case he was surprised to discover that the rabbit hole extended further than he ever could have imagined.

In 2015, Mark put his thoughts together in a series of You Tube videos as 'Flat Earth Clues' which have been utilised by other You Tube creators and seen by millions in some format or other. This bought the opportunity to publish his first book *Flat Earth Clues: The Sky's the Limit* which delves into the possibility of our human civilization being inside a "Truman Show" like enclosed system and how it's been hidden from the public since 1956.

Since then Mark has produced over 1,000 Flat Earth videos, been interviewed hundreds of times, and speaks to groups in different countries regarding this extraordinary claim.

ABOUT THIS BOOKLET

This booklet compliments the audiobook and contains extracts. The FULL and complete version of this book is available in paperback and on kindle.

Acknowledgements

*For my Mother,
Who started an amazing chain of
events that led to this book, I am
forever in her debt*

Special Thanks

To

Robbie Davidson for pestering me to write it

*Sara Stewart for her early draft edits and the
introduction to this books illustrator*

Lisa Newton and her publishing team

*And many thanks to all the amazing Flat
Earth members who have reached out to me
since this journey began. Everything in this
book is because of your enduring faith and
tireless efforts. I may not be able to
acknowledge everyone that I would like, but
you know who you are. Stay Flat.*

Chapter 11: Religion and Why FE Matters to You

Joshua Holding the Sun

From Joshua chapter 10, verses 12-15:

¹²On the day the LORD gave the Amorites over to Israel, Joshua said to the LORD in the presence of Israel:

“Sun, stand still over Gibeon, and you, moon, over the Valley of Aijalon.”

¹³So the sun stood still, and the moon stopped, till the nation

avenged itself on its enemies, as it is written in the Book of Jashar. The sun stopped in the middle of the sky and delayed going down about a full day.

¹⁴There has never been a day like it before or since, a day when the LORD listened to a human being. Surely the LORD was fighting for Israel!

¹⁵Then Joshua returned with all Israel to the camp at Gilgal.

Satan Tempts Jesus

From Mathew chapter 4, verse 8-11:

⁸Again, the devil took Him up on an exceedingly high mountain, and showed Him all the kingdoms of the world and their glory.

⁹And he said to Him, “All these things I will give You if You will fall down and worship me.”

¹⁰Then Jesus said to him, “Away with you, Satan! For it is written, ‘You shall worship the LORD your God, and Him only you shall serve.’ ”

¹¹Then the devil left Him, and behold, angels came and ministered to Him.

The Second Coming

From Revelation chapter 1, verse 7:

⁷Behold, He is coming with clouds, and every eye will see Him, even they who pierced Him. And all the tribes of the earth will mourn because of Him. Even so, Amen.

Chapter 12: The Flat Earth Problem

Chapter 13: End of the World

If you have made it all the way to the end of this Flat Earth overview then you have layers of questions that remain. If you want to know more, if you want to take part in the growing movement that will change our world then please research some of the links in the reference guide and never ever stop asking questions.

Alex Micheal

A lifelong performer, UK artist Alex Michael has worked hard in the club and pub circuit singing and playing guitar, keys, and bass in numerous bands. He was also a professional DJ for 10+ years Alex has now turned his attention to music production and is well in his element surrounded by his beloved instruments in his home studio.

After much conspiracy research and understanding more about the true nature of this reality, Alex has used his talents to write conspiracy music about the flat earth, gravity, satellites, the moon landing hoax, the so called 'photos' of earth and more.

Alex created the character 'Flat Earth Man' for his music videos and songs, the character is a larger than life animated country dude who clearly has a lot to say, and often says it or sings it with very humorous results.

ABOUT THE AUTHOR

Mark K Sargent

Growing up on Whidbey Island, Washington, Mark Sargent started his career playing computer games professionally in Boulder Colorado. From there he spent the next 20 years training people across the United States in proprietary software. In 2014, he looked into what is no doubt the strangest conspiracy ever, called "Flat Earth Theory", and through extensive research, discovered that it wasn't so laughable after all.

In 2015, Mark released a series of YouTube videos and book titled "Flat Earth Clues: the sky's the limit", which delves into the possibility of our human civilization actually being inside a "Truman show" like enclosed system, and how it's been hidden from the public since 1956.

Mark hosts a regular show called **Strange World** on Truth Frequency Radio (TFR): <https://tfrlive.com/flat-earth-makes-the-cover-of-newsweek-magazine-86465/>

OTHER BOOKS BY THE AUTHOR

Flat Earth Clues: The Sky's The Limit

The Flat Earth Clues book gives you 12 compelling reasons why you should rethink the globe model that you have been taught. Before you were born, before your parents, your grandparents, before you even had a family line There was the illusion, the trick, the lie... That you lived on a small spinning rock, flying through space. You thought it was true, because children don't believe in

lies. And you grew up, and it was still true, because science is never wrong... Except for small things like, Lead Gasoline, Lead Paint, DDT, Cigarettes not causing cancer, and what the core of the earth looks like. You know that fire burns, water is wet, drop something and it falls to the floor. We can all test these things. What shape is the world? That's not something you know, it's something you're TOLD. To put it simply, you just have to take their word for it. And there's the real crux of the problem, the weight of their word, it's really about trust. Most of us trust science to some degree. To be fair, it has produced some modern conveniences, like air conditioning, lightbulbs, and smart phones. But it also made things like atomic weapons, nerve gas, and napalm. Make no mistake, the greatest advances in science have been in different ways to

kill each other. What if, after centuries of preaching the globe as a religious icon, "the powers that be" found out that it was actually not a sphere, but instead something much different? Would they risk unravelling 500 years of science doctrine by informing the public? Could a government still retain its authority if there were actually proof of a higher power? It's about proving the Flat Earth, but more importantly, it's about disproving the globe, and that shouldn't be possible, but there are several big questions which science has a difficult time with. Why was there only one blue marble image used for 43 years? Where are the videos of the earth rotating from space? Astronauts can't turn around in space with the camera running? Not even by accident? Are the Van Allen radiation belts dangerous? Why does the Orion Trial by Fire video exist? Why was the space shuttle program cancelled? Why does the Mars mission keep getting postponed? Why are they closing down the ISS? Why is Psalm 19:1 on Werner Von Braun's headstone? We can beam back crystal clear photos of Pluto, but the Global Positioning System doesn't track planes in the Southern oceans? And why does this topic, compared to ANY other, conspiracy or not, make people excited, angry, or scared? Some of you are getting anxious just listening! Why? Because it's the greatest trick of all, and we all fell for it. You should be excited, because it's going to change the world. You should be angry, because you were fooled your entire life, and you should be a little scared, because this is uncharted territory. This is the Flat Earth theory that the world is easy to understand, more intimate, and very deliberate. It didn't just happen, it was built, and more importantly built for you. Open your eyes and smile. You have never been alone. www.facebook.com/FlatEarthCluesBook/
